## About this Report

This report is based upon the Wave® Styles assessment which explores an individual's approach to work in a number of relevant areas. It indicates an individual's entrepreneurial potential based on the Entrecode® model of successful entrepreneurs.

The results are based on a comparison with an international group of over 24,000 professionals and managers.

Since the questionnaire is a self-report measure, the results reflect the individual's self-perception. Our extensive research has shown this to be a good indicator of how people are likely to operate in the workplace. Nevertheless, due consideration must be given to the subjective nature of using an individual's self-perception in the interpretation of these data.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

The information contained within this report is likely to remain a good reflection of the individual's self-perception for 12-24 months, depending upon circumstances.

The report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the respondent, and reflects the responses they made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.

# Introduction

## The Entrecode® Research Model

The basis of this entrepreneurial potential report is the Entrecode® model ([www.entrecode.co.uk](http://www.entrecode.co.uk)) of successful entrepreneurs who have created and led high value businesses, often starting with virtually nothing. The Entrecode® model was derived from more than fifteen years of research undertaken by Professor David Hall and his associates.

This report predicts potential for each of the six core areas outlined in the Entrecode® model, from 'Getting in the Zone' through to 'Building Capability':

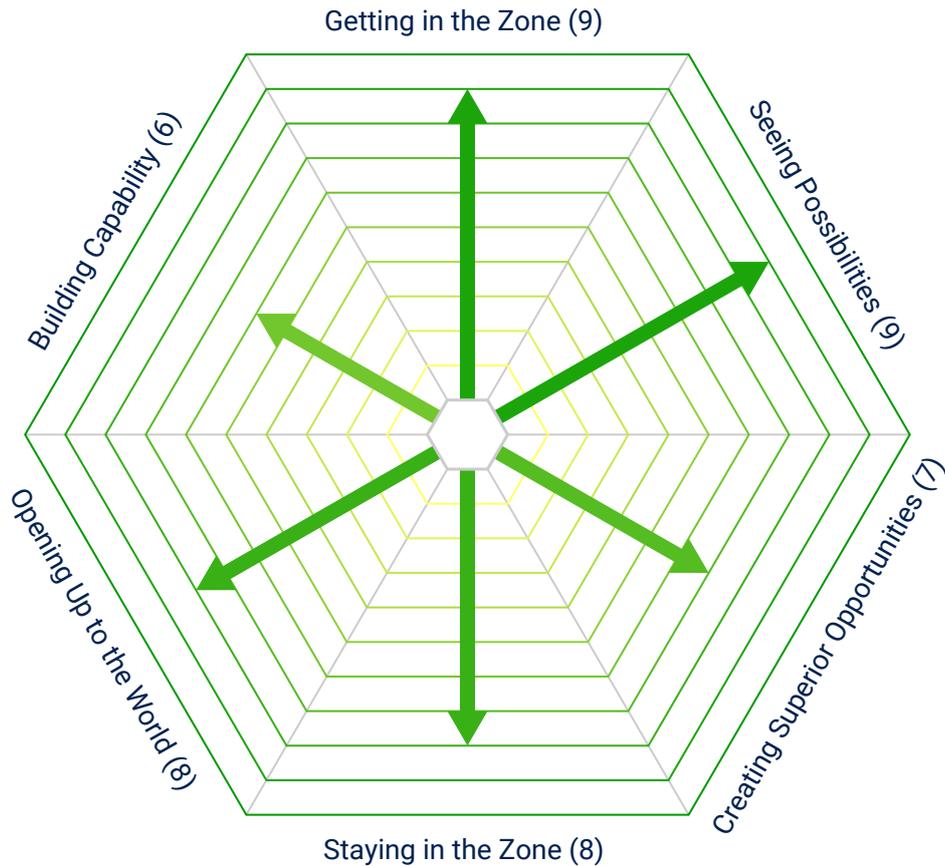

## Entrepreneurial Potential Summary

The Entrepreneurial Potential Summary provides information on the six core areas of the Entrecode® model, followed by a brief description of each area.

## Entrepreneurial Potential Profile

The Entrepreneurial Potential Profile provides greater detail by breaking the six core areas down into 21 aspects of entrepreneurial potential. For each of the 21 areas a description is provided which varies according to Chris Park's score.
